ABOUT ME

Full Stack Developer with hands-on experience building responsive web applications using React.js, Node.js, Django, and SQL databases, along with applied machine learning projects spanning healthcare diagnostics and cybersecurity. Skilled in AI-assisted software development, Prompt Engineering, and working with ChatGPT, Claude, and Google Gemini to improve development workflows, problem-solving, code generation, debugging, and technical documentation. Currently pursuing an MCA with a strong academic record (8.91 CGPA). Detail-oriented, quick to learn new technologies, and comfortable owning projects end-to-end—from data and feature engineering to API integration, testing, deployment, and continuous improvement.

EDUCATION

MCA (Master of Computer Applications)
Mepco Schlenk Engineering College
Current CGPA: 8.91 (VI Semester)
2024 – 2026

BSc, Computer Science
Madurai Kamaraj University
CGPA: 7.70
2021 – 2024

SKILLS

- Programming Languages: Python, Java, JavaScript
- Frontend: HTML5, CSS3, JavaScript, React.js, Responsive Web Design
- Backend: Node.js, Django, REST APIs
- Databases: MySQL, PostgreSQL
- Frameworks / Libraries: React.js, Node.js, Django
- Developer Tools & Version Control: Git, GitHub, VS Code
- Concepts: OOP, CRUD, MVC, Agile Methodology, SDLC, Debugging, Testing
- Machine Learning: Decision Tree, SVM, Random Forest, Computer Vision Basics
- AI & Prompt Engineering: ChatGPT, Claude, Google Gemini, AI-assisted Software Development

LANGUAGE

- English
- Tamil
- Hindi (Reading)

EXPERIENCE

Gates cloud technologies pvt lt *2025 – 2026*
Full Stack Developer Intern
- Developing responsive web applications using HTML, CSS, JavaScript, and PostgreSQL.
- Working on API integration, testing, and bug fixing using Git collaboration.

CloudsBySunil×TecGrad Learning & Project Intern *2025 - 2025*
React.js Intern
- Mode: Online
- Completed live individual & team projects
- Gained hands-on practical experience
- Improved teamwork and problem-solving skills

Game Developer Intern — Foxzoid Game Studio LLP *2026 - 2026*
- Completed a 3-month Game Developer Internship with hands-on development experience.
- Contributed to game projects using problem-solving and iterative development.
- Earned a Certificate of Completion for strong performance.

PROJECT

Secure Logging as a Service (SLAAS)
Developed a cloud-based secure logging system for log management and analysis.
Improved security and scalability using Java and MySQL.
Tech Stack: Java, MySQL

Cyber Hacking Breaches Prediction & Detection
Built an ML-based cyber threat detection system using historical attack data.
Improved threat prediction and response accuracy.
Tech Stack: Python, HTML, CSS, JavaScript

Engenix E-Commerce Website
Developed a responsive e-commerce website with search and cart features.
Implemented product filtering and user account management.
Tech Stack: React.js
Demo : https://engenix01.netlify.app/

Anemia Prediction Using Eye Conjunctiva Image Analysis and Lifestyle Factors
Developed a non-invasive anemia prediction system using conjunctiva image analysis and lifestyle data.
Trained Decision Tree, SVM, and Random Forest models, achieving 95.10% accuracy for early anemia screening.

CERTIFICATIONS & ACHIEVEMENTS

- Participant – AI Conclave "Empowering Future Engineers with AI Technologies"at Mepco Schlenk Engineering College
- Winner – Logic Architect Award (2nd Prize), CodeFest'25 Hackathon
